

CHEMITOUCH NITRILE GLOVES

The Chemitouch glove provides superior and reliable hand protection in hostile chemical environments. It is full dip nitrile on an ergonomically thin and comfortable 15g liner. The sandy nitrile palm provides excellent grip in dry, wet & oily conditions.

FEATURES & BENEFITS

- Tactile and ergonomic 15g nylon liner for protection and comfort
- Triple coated nitrile
- Sandy palm for an excellent grip in wet and slippery conditions
- Resistant to oils, hydrocarbons, grease
- Provides protection against chemicals, micro-organisms and abrasion
- 35cm length for forearm protection

APPLICATIONS

Suitable for exposure to bases, oils, fuels, solvents and esters in industry. Also ideal for laboratory and food processing applications.

MATERIAL

15g Nylon Liner
Full Nitrile Shell
