

HEAVY DUTY

REVERSIBLE HAND RATCHET

APPLICATIONS

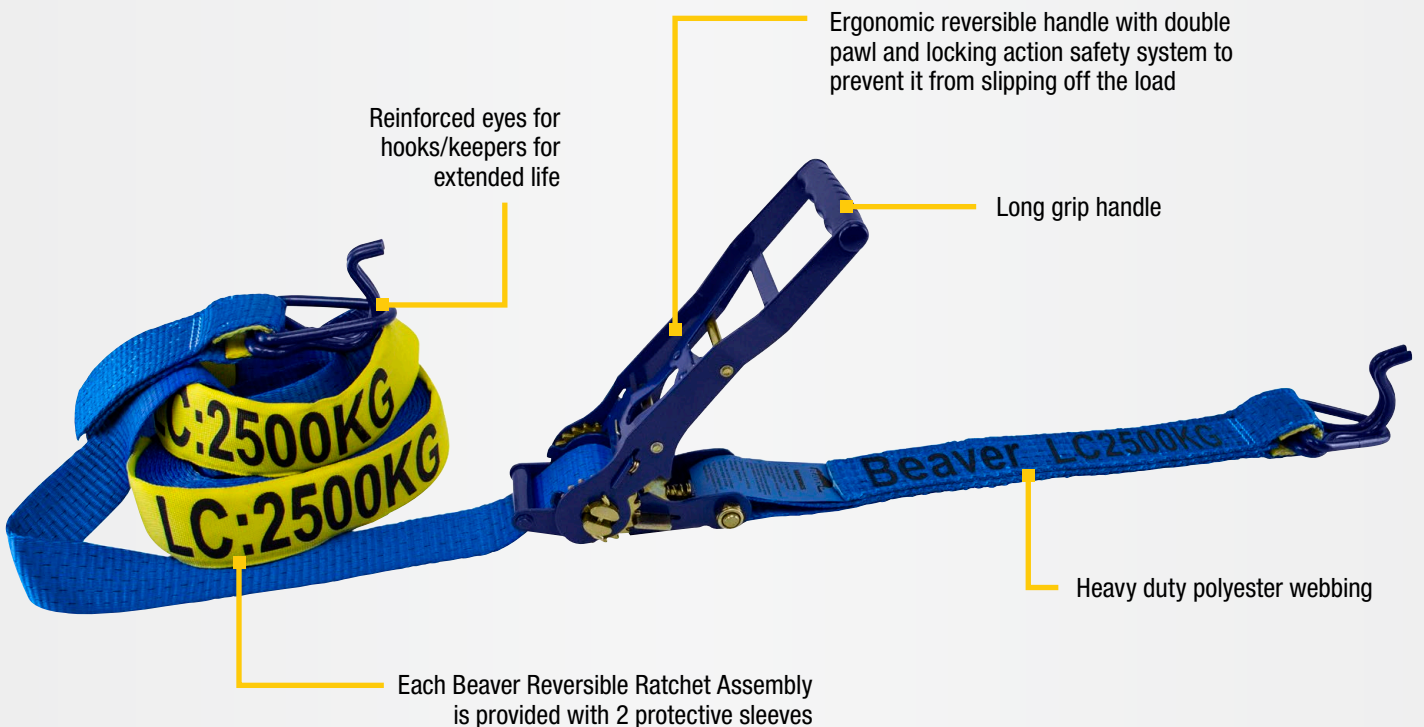

SECURING HEAVY LOADS DURING TRANSPORTING

The Beaver Reversible Ratchet Tie Down is a smart choice for safely securing heavy cargo on trucks and trailers. Its ergonomic design enhances safety and efficiency, especially when dealing with challenging loads. The reverse action pull-down handle simplifies the tensioning process, making it easier to secure loads, even when you're working overhead.

FEATURES

- **ERGONOMIC LONG HANDLE:** Pull down design to reduce injuries when tightening the load, enables more leverage to reduce risk of strain injuries.
- **RATCHET MECHANISM:** Allows tightening and loosening of the strap with ease, providing a secure hold on cargo.
- **DURABLE MATERIAL:** Made from strong and weather-resistant polyester webbing materials for durability and reliability.
- **HOOKS AND KEEPERS:** Designed to securely attach to anchor points on trucks, trailers, or other surfaces, ensuring a strong connection.

Manufactured and certified in accordance with Australian Cargo Restraint Standard AS/NZS 4380
